

Your Visit to RIKEN Yokohama Campus

RIKEN is currently conducting its research activities while taking measures against COVID-19. To prevent the spreading of infection, please refrain from entering the Yokohama Campus as much as possible and consider using online tools for meetings and conferences.

When entering or staying at the Yokohama Campus, please follow the instructions of the host laboratory/office, including the following:

1. Measure your temperature before visiting.

Note: If you have a fever or feel sick, or if 72 hours have not passed since your fever broke without taking antipyretic, you will not be allowed in. We ask for your cooperation with the temperature check during your entry registration at the guard station.

2. Wear a mask and follow cough etiquette while on campus. During lunch or on breaks, do not converse with others without wearing a mask.
3. Avoid using elevators whenever possible.
4. Thoroughly wash your hands with soap once you arrive on the floor where your host lab/office is located.
5. Maintain an adequate physical distance from others (2 meters if possible, but at least 1 meter) in order to avoid close contact.
6. Smoking on the Yokohama Campus is allowed only in designated outdoor smoking areas. If using a smoking area, keep at least 2 meters away from others, do not converse while smoking and leave the area as soon as you are done.
7. Please leave the campus promptly once your business/work is completed and refrain from going to other places on campus.
8. Please provide to staff in the host lab/office your contact info where you can immediately be reached in case of a close contact situation, etc.
9. If you have a fever after within two weeks of your visit, please contact the host lab/office staff as soon as possible.
